Help Us Make Our Communities Healthier

As a friend of MVHI, you know how vital our work is to our local communities. In 2014, MVHI provided services and developed new partnerships to achieve our mission with no federal or state funding. We believe the support you and others have provided is a testament to our ability to meet local needs — to do the work that you value as a community.

Please join our dedicated staff, Board members, and other local contributors in supporting this vital service.

Please consider making a tax-deductible contribution by check or online at www.mvhi.org/giving/donate.

MASCOMA VALLEY HEALTH INITIATIVE

"Protecting and promoting the health of our communities since 2001."

MVHI-sponsored flu clinic in Orford, October 2014

Annual Report 2014

Message from the Board of Directors

Nancy DuMont, MS, Chair

I am gratified to have been part of the growth of the Public Health Council of the Upper Valley over the past year. On behalf of MVHI's Board of Directors, we are proud to have played a leadership role in bringing this

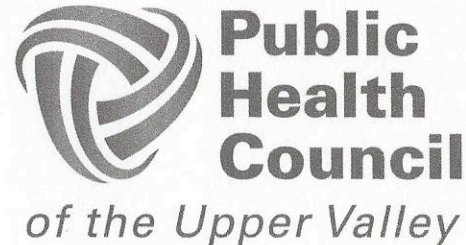

new collaborative to life. MVHI serves as fiscal and administrative home to the Public Health Council. MVHI's Executive Director serves as Coordinator for this new approach to public health in our region. Several of our Board members serve on its Executive Team.

Through the Public Health Council, we brought together nearly 100 people representing hospitals, agencies, towns, schools, and businesses to reexamine community needs through a collective lens. We developed the Upper Valley Agenda for Public Health, a set of health concerns with indicators to track the impact of our work. We now turn our focus to implementing collaborative approaches to addressing the concerns.

Please join me in supporting MVHI's work in 2015. Together we can build a more healthy, safe, supportive, and vital region.

Nancy B. DuMont

2014 Program Highlights

MVHI is pleased to host the **Public Health Council of the Upper Valley**. The PHC is one of thirteen regional public health networks across New Hampshire. We provide leadership for shared public health initiatives and services within a common network of community stakeholders. Through our work, we listen to community needs, build a shared public health agenda, promote collaborative solutions, and bring services to underserved areas.

Mascoma Valley Prevention Network (MVPN)
MVPN brings together parents, schools, businesses and youth-oriented providers to reduce the impact of alcohol and drugs in our community. We provide parent education, connect people to resources, and promote effective prevention approaches. MVPN participates in regional efforts to multiply our impact.

Indian River Youth 2 Youth (Y2Y)
The Y2Y after-school program at the Indian River School teaches youth the risks of alcohol and drug misuse and abuse, what they can do to protect themselves and others, and provides chances for them to act in their school and community to reduce misuse and abuse. We serve nearly twenty high risk youth each year.

Immunization
In 2014, MVHI, in partnership with Dartmouth-Hitchcock and students from the Geisel School of Medicine at Dartmouth, hosted four free flu vaccine clinics. Over 1,200 residents aged 10 and older were protected from seasonal flu. Clinics were held in Enfield, Orford, and Plainfield.
